

SANJAY KUMAR SHARMA

Anand, Gujarat, India

[linkedin.com/in/sanjay-kumar-sharma121/](https://www.linkedin.com/in/sanjay-kumar-sharma121/)

OBJECTIVE

As an IT student with a creative flair, I'm passionate about blending the worlds of web development, cybersecurity, and ethical hacking. I believe that creativity is a powerful asset in problem-solving and finding innovative solutions. I love exploring the intersection of technology and design to create impactful and secure digital experiences. Let's connect and share our creative ideas in the world of technology!

EDUCATION

Bachelor of Technology - BTech, Information Technology

Present

A D Patel Institute of Technology, CVM University

SKILLS

Programming Languages	C/C++, Java, Python, JavaScript, PHP
Frontend Technologies	HTML, CSS, JavaScript, React, Redux, Bootstrap, Tailwind CSS
Backend Technologies	PHP, NodeJS, ExpressJS
Cloud/Databases	MySQL, PostgreSQL, MongoDB
Area of Interest	Full-stack, Frontend & Backend Development
Soft Skills	Leadership, Teamwork, Quick learner, Flexible
Activities & Societies	Football, Cricket

EXPERIENCE

Web Development and Designing Intern

1 month

Oasis Infobyte

- Developed and designed web applications using various technologies.

Cybersecurity & Ethical Hacking - Web Developer Intern

1 month

TechnoHacks EduTech Official

Web Developer Intern

1 month

CodSoft

- Built responsive web pages using HTML, CSS, and JavaScript.
- Contributed to frontend development tasks.
- Practiced implementing basic UI/UX designs.

CERTIFICATIONS

Python	GUVI Geek Networks, IITM Research Park
Digital Design & UX Job Simulation	Forage
Career Essentials in Software Development	Microsoft & LinkedIn
Introduction to Cybersecurity	Cisco
LFC108: Cybersecurity Fundamentals	The Linux Foundation
Ethical Hacking Essentials (EHE)	EC-Council
Mastering JavaScript Fundamentals	Geekster

PROJECTS

PHP Blog Management System

Developed a dynamic blog system using PHP, MySQL, HTML, CSS, and Bootstrap. Includes various features for different user roles. Admins can manage posts and users, while super admins can also handle categories and co-admins. [\[Try it here\]](#)

Live Chat System using PHP

Built using PHP, HTML, CSS, JavaScript, Bootstrap. Allows seamless messaging without page reloads, ideal for social networking sites. [\[Try it here\]](#)

Portfolio Website

Created with ReactJS and Tailwind CSS to showcase projects and skills in a sleek, responsive design. [\[Try it here\]](#)
